

JUUL Vape Pods

The JUUL lawsuits claim the manufacturer of the JUUL e-cigarette devices deceptively marketed a highly concentrated nicotine delivery system to teenagers and young adults in order to get them addicted to JUUL products.

Our law firm is representing individuals who became addicted to nicotine as a result of using JUUL.

JUUL products contain very high concentrations of nicotine that cause teenagers and young adults to easily become addicted. The manufacturer knew this and promoted it.

Criteria

- Less than 32 years old presently
- First use prior to August 10, 2018
- Addiction or addiction related injury
- Nicotine overdose or poisoning
